

Dear Parents/Carers,

With all the concerns over the coronavirus outbreak and how this might impact schools and your child's learning, we wanted to offer you some ideas to help you continue their education during any potential school closures.

We also appreciate that keeping children engaged in their learning whilst at home is not going to be easy so we have prepared perfectly matched content for your child that can be completed both independently or with adult support.

For independent learning and games, we recommend using Classroom Secrets Kids (kids.classroomsecrets.co.uk/). Packed with fun and engaging Year 6 content, this online learning platform is guaranteed to keep your child learning.

For more practical resources and worksheets, we have included a learning pack perfectly matched to the Year 6 content. With a range of resources, these packs will help continue the learning inside your home.

For further learning and engaging content, there is a selection of video tutorials on Classroom Secrets Kids designed to help you as a parent and your child.

Ideas to support your Year 6 child:

- Recap specific grammatical terminology
- Practise spellings from the Y5/6 word list and put them in sentences
- Read lots of different types of texts and discuss them
- Practise calculating using all 4 written methods of calculation (addition, subtraction, multiplication and division)
- Explore equivalences between fractions, decimals and percentages
- Practise calculations using fractions and decimals
- Find fractions and percentages of amounts
