

Year 5 Optional Homework – Spring Term

Biographies, Persuasion, Non-chronological reports, Rounding, Fractions, Earth and Space, Lifecycles and reproduction, The Tudors, Why do Oceans Matter, Drawing, Sikhism, Easter.

Activities linked to our topics

English

Interview a family member from your grandparent's generation. Find out about their childhood, schooling, career and retirement. Write the biography of their life.

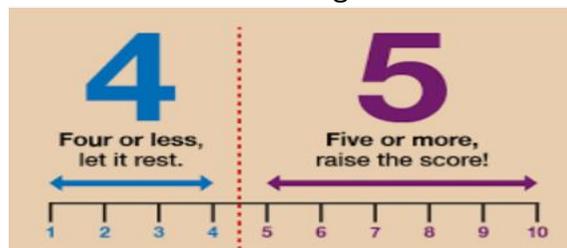

Maths

Challenge yourself to round numbers to the nearest 10, 100, 1000.

Roll a dice to generate the number. Apply the rounding rule:

Science

Can you make a 3d model of the planetary system?

What could you use for the planets? What would you use to show the sun? Be creative!

History

What was life like in Tudor England for those not living in a castle or a royal palace? Research ordinary people and find out about daily life. Write a diary as one of these people.

Geography

Should we care for our oceans? Design a poster that will encourage people to use less plastic so that our oceans can become more healthy.

Art

What's in the frame? Sketch what you can see out of your window frame. You can use your window, or another one in your house.

Life skills

Healthy lifestyles

Take charge in the kitchen. Bake a cake, make some cookies, invent a new ice cream... find a recipe you like and make it for your family.

Family Time

Play a board game. Describe the game and the rules. Try your hardest to win! Take a photo of your success.

Free choice

Choose an activity that brings you joy and takes you out of your house. Take photos of you doing this activity.
